

Experience

UX Contractor @ Robert Half, DC Aug 2022 - Present

I've led ux/ui design consultancy & implementation efforts for medical associations, education technology, and enterprise non-profits from user experience research, user interface design, and hi-fidelity prototype deliverables.

UX Designer @ Edmentum, DC May 2021 - Nov 2022

Senior user experience design lead for an education technology firm that operates in the continental United States and the United Kingdom. I work with a diverse team of stakeholders to interview users, assess & propose, and deliver user experience design prototypes for the Edmentum products suite.

UX Design Coach + Mentor @ Springboard UX, DC, December 2019 - December 2022

Manage & mentor between 4 to 8 aspiring ux design mentees at any given point. I review & provide feedback on their ui design projects, plan for short & long-term career goals, review their online presence, portfolio, & resume, and provide guidance on interacting with clients on negotiating, presenting, and submitting deliverables as UX professionals.

UX Designer @ Agilious, DC. December 2019 - October 2020

Led user experience design efforts for primary client at USAID to modernize their interface on the K2 platform.

UX Designer @ Computer Enterprises, Inc, DC. June 2019 - November 2019

Alongside the lead designer as a contractor, I worked directly with non-tech executives for AARP to interview users & research design patterns to propose a redesign for their nationwide intranet, delivering cohesive wireframes for implementation as part of their Phase 0 efforts.

UI Designer @ Salient CRGT, VA. June 2018 – June 2019

Led the design interface effort for the Federal Election Commission as the US moves towards more transparent solutions on fundraising reporting with FEC-File migrating to the cloud. I strategize directly with the client in developing intuitive design patterns and implementing high-definition mockups and prototypes.

UX Designer @ World Bank, DC. December 2017 – February 2018

Completed a short-term contract with their IT Business Services department where I was in direct contact with interior client stakeholders of various World Bank Group partnership in several humanitarian efforts & initiatives. I reviewed Information Architecture's low-fi web wireframes to decide design direction based on project scope, branding guidelines, and backend platform deliverable.

Senior UI Designer @ Aristotle International, DC. December 2013 – December 2017

I collaborated with the VP of Product Services to design software tools for political campaign managers by replicating industry standard project management tools into proprietary software for increased security and seamless branding experience.
